INGALLS MEMORIAL LIBRARY REPORT OF TRUSTEES

For the Year Ending December 31, 1948

During the past year, we have acquired \$200.00 from the fund set aside by the State of New Hampshire for the purpose of assisting small libraries toward a particular project. The money was used to buy books for readers from the Sixth Grade through the first two years of High School. Selection was made by Miss Catherine Pratt, Assistant Librarian. It was Miss Pratt's interest in this Library that obtained the funds, and it was due to the generous appropriations by the townspeople yearly and the high standards maintained by Miss Morgan and your Trustees which made it possible for her to do so.

We wish to again acknowledge the gift and thank Messrs. Sidney B. Fitzgerald and Richard T. Rice for the beautiful mounted beaver presented to the Museum. This animal was trapped in Rindge and is an unusually fine specimen.

In addition, Mrs. Fannie M. Wilder has given the Library the accoutrements of Captain Donnelly, her ancestor, who served in the Civil War and was well known among the older residents of Town.

It has been our custom during the past few years to add to the Library one or more non-fiction books of gen-

eral interest and lasting value, and this year we have chosen "Fundamentals of Carpentry" in two volumes, together with "Use of the Steel Square." These are valuable and of interest both for the home and professional carpenter. "Use of the Steel Square" is highly recommended for the High School student in manual training as well as the skilled carpenter.

It appears that real progress is now being made towards refurnishing and decorating the Young Peoples' Room and we hope it may be completed before the end of the year.

We thank all who have given or loaned books or assisted in any way to increase the value of the Library for residents of Rindge.

HARRIS H. RICE,
HARRY E. SHERWIN,
MARY E. SHEPHERD,
Trustees.

Nineteen forty-eight has brought to the teen age boys and girls of Rindge, a fine collection of new books, covering a wide variety of interests, fiction, history, mechanics, biography, poetry; just in time for the fifteen year old boy, visiting in Rindge last summer who wrote back after returning to his New Jersey home, "I wish we had some of those good books in our library." This collection of 121 books was a gift from the State Library and some of our boys and girls are enjoying them exceedingly.

We hope that more will avail themselves of this opportunity.

The past year has been a quiet one, with not as many visitors as usual coming to the library, either children or adults. The telephone has been removed so that we are not so available for inquiries or messages. One of the high spots of the year was when the beaver, caught in Rindge by Mr. Sidney Fitzgerald and Mr. Richard Rice was brought in to occupy a place in the museum. This event attracted many of our young people to view this new specimen of wild life.

The most lively interest in books has been among the children of the West Rindge School, who are always ready for a new book to take home. They are learning at an early age to be responsible for borrowed property.

The value of an institution is not measured by statistics and in spite of our slackened activity at the moment, it is still true, that the presence of a library such as ours, with its fine reading material, its up-to-date reference volumes, its richly furnished reading room is a priceless asset to a Town and not to be measured by tangible standards.

For the support of the Library Trustees and for the help of Mrs. Ralph Pangborne and Miss Danforth, also for the faithful service of Mr. Crowell throughout the year your librarian is sincerely grateful.

Respectfully submitted,
ALICE L. MORGAN,

Librarian.

B. ADMINISTRATIVE POLICY

The past year has brought a noteworthy increase throughout the United States in the interest taken by parents and other laymen in the part our public schools play in the formation of the pattern of our society. One evidence of the interest in this area is the increased activity of Parent-Teacher Associations.

Each district in this supervisory union, except Sharon which has no school, now has an active working P. T. A. These organizations have evidenced high interest in pupil welfare by the exceedingly effective work they have done in supporting their major project this year—the school lunch program.

It is the recognition of the need of the combined efforts of all—teachers, school boards, parents and superintendents—working in close cooperation that has made it possible to accomplish so much. The welfare of boys and girls will be served continuingly better as we gain new experience in cooperative study and planning toward that high goal. There is much to be done but real accomplishment can be seen when there is a concentration of effort upon each specific problem. The development of our schools as the foundation of our society is the responsibility of each and every one of us as a member of that society.

C. ADMINISTRATIVE ORGANIZATION

Judging from the number of questions asked your superintendent of schools regarding the administrative organization of this supervisory union, it seems appropriate to devote a small amount of space in this report to this subject:

This union, known as the Peterborough—Jaffrey Supervisory Union No. 47, is one of the 48 of which the state is comprised and is composed of six school districts: Peterborough, Jaffrey, Dublin, Hancock, Rindge and Sharon. The following table of facts should be of interest:

Dist.	Instructors					Lunch			
	Schools	Pupils	Reg.	Spec.	Nurses	Physician	Workers	Janitors	Trans-porters
Peterboro	2	482	19	4	1	1	3	2	1
Jaffrey	2	541	24	3	1	0	4	2	5
Dublin	1	87	4	2	1	1	1	1	4
Hancock	2	109	7	2	1	1	1	2	1
Rindge	3	79	4	2	1	0	0	3	7
Sharon	0	0	0	0	0	0	0	0	1
Totals	10	1298	58	6*	2*	3	9	10	18*

*Not including duplications

The governing and directing bodies of the respective schools are the six school boards and the board of trustees of Hancock High School for whom the superintendent serves as educational advisor and executive officer. It is significant to note that in the performance of his duties he is responsible for the supervision of these 106 employees who constitute the working staff for the operation of the 1298 pupils enrolled.

PART II. INSTRUCTION

A. TEACHERS AS OF JANUARY 31, 1948

Teacher	Postion	Salary	Enrollment
Marion A. Carter	Ctr. Prin. & Gr. 7-8	\$2,200 00	19
Alice E. Hammond	Ctr. Gr. 1-6	1,950 00	20
Carrie S. Gray	West Gr. 1-4	1,950 00	26
Miriam Hunt	East Gr. 1-6	1,950 00	14
Florence E. Stebbins	Music all schools	320 00	
Robert L. Filbin	Art, all schools	210 00	

No changes in the personnel of the teaching staff occurred during the school year 1947-48, but there was one resignation at the end of the school year. Mr. Marion A. Carter of Hanover, N. H., a graduate of Dartmouth in the class of 1948 was elected to replace Mr. Haley as principal, and teacher of grades 7 and 8 at the Center. As this report is being prepared, Mr. Carter has tendered his resignation to take effect February 28, 1949. One member has been added to the staff for the current school year. Robert L. Filbin, a graduate of the Massachusetts School of Art, is serving as supervisor of art for the supervisory union..

B. PROGRAM AND METHODS

Probably the most important change in the instructional program during the past year was the introduction last fall of an organized program in art. Mr. Filbin is now employed as supervisor of art for the whole supervisory union. Part of his time he devotes to direct instruction of pupils and part of his time is put into assisting teachers in the correlation of the art work with the other activities in school. The pupils are receiving the new opportunity with high enthusiasm. Much of the interest is due to Mr. Filbin's unusual skill in stirring each pupil to see in his everyday living experiences the vital part art plays. This

improvement in the school program has given Rindge boys and girls significant help toward attainment of a stable emotional life.

The program of instruction correlating the basic subjects of reading, social studies, science, arithmetic and health adopted two years ago, and further extended last year, has been continued this year up through all grades. This effort has resulted in a marked improvement in this phase of the program during this period. The fine quality of this type of material can do much to stimulate the interest and increase the efficiency of the instructional program, but it cannot overcome the deficiencies in larger modern instructional equipment such as phonographs, radio, moving pictures, film strip projectors, lantern slide projectors, modern maps, charts, pictures, globes, suitable chalk boards, etc. Recent graduates of our present day teacher training courses are trained in the use of modern equipment and a lack of it handicaps them as well as the older teachers in carrying on a successful educational experience for the youngsters.

PART III. SCHOOL PLANT

It is exceedingly regrettable that so little progress can be reported in the improvement of the school plant during the past year. The toilets at the West Rindge School were fixed during the summer according to action taken last March and the playground apparatus authorized at that time for all schools has been on order for several months, but has not yet been received. The damage being done to the mental and physical health of the boys and girls of Rindge because of the serious deficiencies in lighting, toilet and drinking facilities, proper heating, suitable play space, and pupil grouping, is truly serious and can never be repaired. Dollars and cents cannot measure such harm. Justice to the children **now in school** demands that ways be found **immediately** to correct these deficiencies.

4. The number of pupils transported increased from 25 to 31 from one year to the next.

PART VI. AUXILIARY ACTIVITIES AND SPECIAL REPORTS

A. REPORT OF THE SCHOOL NURSE

Ola H. Myhaver, R. N.

The following is the report of the summary of the Health activities at the Rindge Public schools from Jan. 1948 to Jan. 1949.

General inspection of students was conducted twice a month.

Heights and weights of students were recorded three times a year.

Hearing tests of students were recorded with the Maico Puri-Tone audiometer. This test is a great improvement over the group test.

Vision tests of students were recorded with the Mass. vision test. This test was used for the first time this year in the schools and seems to be far superior to other tests used.

During the spring of 1948 inspection was made of children who expected to enter Grade I at W. Rindge school in Sept. Parents or representatives were present. This enabled the parents of children entering school in Sept. to have necessary defects corrected before that time.

It is hoped that this activity may be carried on at Center and East Rindge next year.

Inspection by the nurse has been followed by notices of defects of children being sent to parents, by interviews and by home visits.

In compliance with the laws of the State Board of Health regulating communicable diseases exclusions from school have been made for chicken pox and measles.

Arrangements have been made for the Tuberculin Skin test (Patch) to be administered by Mrs. Mildred

Aiken, R. N., co-nurse for the Tuberculosis Ass'n. and State Board of Health in March 1949.

Class room inspection of students has been made by the teachers each morning. At W. Rindge pictures teaching safety have been exhibited. Parents contributed money for cocoa to be served by the teacher at the noon hour.. At East Rindge apparatus has been made for play. Slides, jumping standards, ladder, stilts, chinning bar, etc. Recess lunch was discontinued except for underweight children. Minor accidents have been cared for at each school.

At Centre Rindge the Ivory Patrol Inspection project was used in grades 1-6. Health posters were made. Accident cases that could not be cared for at school have been taken home by the principal so that they could be cared for by their own physician through the parents.

Records and equipment:

1. A first aid cabinet equipped for minor injuries.
2. A new scales.
3. A disease census card for each new entrant.
4. A health card for each student.
5. A classroom Physical Growth chart for each room.

Meetings attended by the school nurse:

- a. Public Health Nurses meeting, Keene, N. H.
- b. Teachers Institute, Keene, N. H.
- c. Teachers convention, Concord, N. H.
- d. Health and physical education work shop, Peterborough, N. H.
- e. Dinner and talk by Dr. Fuller, former commissioner of education, at Dublin, N. H.

At this time the school nurse wishes to thank the teachers, principal, Supt. of Schools, Board of Education and all who assisted with the Health program.

REPORT OF THE FOREST FIRE WARDEN

Your local organization to prevent and extinguish brush and woods fires is glad to report a good year of forest protection in 1948. In spite of danger conditions nearly equalling at times those of 1947 when great losses were suffered in New Hampshire and New England, fire damage and loss this year have been gratifyingly low.

With the continuing cooperation of all the people, we can hope to have another successful year in 1949. Let us remember that in any year, over 90% of all fires are caused by carelessness and that all of these man-caused fires are preventable.

Today, we have more slash and uncut grassland than for many years in the past. Smokers, campers and tourists who use our outdoors are also more numerous than ever before. We must therefore be ready for fires which might occur but, above all, prevention by everyone is the greatest need.

A few simple precautions taken by every citizen will help, as follows:

- (1) Always get a written permit from the warden before kindling a fire outdoors when the ground is not covered with snow.
- (2) If you smoke, always extinguish matches and tobacco before dropping or throwing them down. In automobiles, always use the ash trays.
- (3) Report fires and smokes to the warden without delay.

The observance of these and other simple rules will go far to insure safety from fire damage and your cooperation in this way is earnestly solicited.

F. J. BAKER,
District Fire Chief.

1948 FIRE RECORD

Number of Fires, 7.

Acreage Burned, 12¾.

Number of Fire Permits Issued, 234.

Respectfully submitted,

RALPH L. HOYT,
Forest Fire Warden.
